The image shows a sequence for a B.S. in Neuroscience-Cellular & Molecular if MATH 1021 is taken first in the first semester. The diagram outlines prerequisites and recommended courses for each semester from Fall I through Spring V. It includes courses such as MATH 1021, MATH 1022, CHEM 1031 & 1033, CHEM 2202 & 2204, BIO 1111, and BIO 3352, among others. Arrows demonstrate the prerequisites, but co-requisites are not represented. Courses with a shadow are only offered once a year, and courses with a crosshatch pattern are not required for the major. The text notes that arrows represent prerequisites, co-requisites are not represented, courses with a shadow are only offered once a year, and courses with a crosshatch pattern are not required for the major. Other collegial and university requirements must also be met. Refer to your major sheets for these other requirements.
