CIS Specific Opportunities – February 3rd, 2015
The following opportunities are included in this issue:

1. Check Out Tech – Rescheduled due to weather – New Date 2/3 – same time & place – see below
2. NET/WORK jobs fair: students get in for free – 2/10 from 1 to 7
3. Three Great internship programs – on campus interviews – Must apply via the OwlNetwork!!!
4. Full Time Entry Level - IT Analyst at Boyd Consulting Partners
5. Please review the latest Computer Science projects from MindSumo
7. QAD Fast Track Program- Full Time Opportunities
8. IT Intern - Horsham, PA - Summer 2015 – Will consider Sophomores & Juniors
9. Embedded Software Engineer – Full Time – at Kulicke & Soffa Masters Preferred

1. Check Out Tech – Female Networking Event -
This event has been moved back one week due to weather issues!
Calling all Female Students....Check Out Tech! Learn how to get into the technology field, even with a
different major! Come to network with Professional Women in the Computer/Information Technology
profession to get a better understanding of what a career in IT is like and how you might consider a career in
the technology field. Temple’s CIS department has partnered with the NWCT (National Women in
Computing Technology) to provide this event.

Besides being a networking opportunity, we will be raffling-off an IPad and
gift cards.

Nationally, only 18% of students graduating from Computer and Information Science programs are
female. The job market continues to explode, and getting more females into this exciting, creative and
innovative career path is critically important. This is the fastest growing area in STEM and the one with the
fewest females. Companies are clamoring to get more talented females hired. There are opportunities for
you - and it is not always a traditional path to get to them!

New Event Date: 2/3/2015
Event Time: 6:00 PM - 7:30 PM
Event Location: SERC Lobby

Contact Name: Wendy Urban
Contact Phone: 6103496546
Contact Email: wurban@temple.edu

Registration details and deadline: To learn more about the event and register – HERE

Temple sponsor organization: Department of Computer and Information Sciences (CIS) and
ACM-W
NET/WORK jobs fair: students get in for free – 2/10 from 1 to 7

NET/WORK is a technology jobs fair where organizations show off their company culture and attendees show off their personality. Entry-level positions and internships are available.

More than 60 businesses, startups and organizations will be at this jobs fair on Tuesday, Feb. 10 at Union Transfer.

They’ll be hiring.

Students and recent grads can attend for free.

Get tickets

Here are the perks included with the price of admission:

- **Dev workshops**: Hear advanced discussions on Python and Backbone.js and learn to build accessible websites. Workshop discussions lead by Tom Panzarella of the Philadelphia Python Users Group, Jide Osan of Squareknot and LeeAnn Kinney of Girl Develop It.
- **Inspiration**: Kick off the day with a talk on how to start a career in dev from Mike Matranga of Tonic Design. (He would know: he used to be a cell phone salesman.)
- Professional development workshops on:
  - Optimizing your LinkedIn, with Chris Burns of InternU.
  - Closing the gender gap, with Leslie Chapman, a software engineer at Comcast. Discuss the current state of women in STEM fields in the U.S.; explore techniques to ensure a successful transition through hiring and onboarding; and talk about how to ensure future success through giving back and inspiring other women.
  - Negotiating compensation, with Anthony Gold.
  - How to ace an interview, with Nick Shiftan of Curalate.
- **Head shots**: By professional photographer Neal Santos.
- **Resume reviews**: By InternU.
- **Coffee**
- **Happy Hour**: If you’re over 21, you get a free drink ticket. Everyone gets snacks.
- **Networking**: Connect with fellow job seekers and recent graduates. Also meet potential employers, collaborators and cofounders.

3. Three Great internship programs – on campus interviews – Must apply via the OwlNetwork!!!

To apply, log-in to OwlNetwork on the Career Center channel in TUportal!

1. Prudential – Technology Intern and Information Technology Intern – Deadline February 10
On Campus Interviews February 26

**4. Full Time Entry Level - IT Analyst at Boyd Consulting Partners**

Boyd Consulting Partners is seeking candidates for an entry-level IT Analyst position for one of its clients, a leading Investment Advisory firm located in Radnor, PA. Reporting to the Director of Technology, this is a newly-created, full-time role that will join an experienced team responsible for all aspects of the firm’s technology, including server, network, telephone and A/V infrastructure as well as custom development, business applications integration, website maintenance, data security and disaster recovery. It’s an excellent opportunity to gain exposure to a wide range of responsibilities in a fast-paced, professional environment.

**Duties:**

- With supervision, performs tasks associated with IT Operations
- Focused responsibility on Web content administration
- Support various business processes and applications
- Perform administrative responsibilities for IT Department as required
- Work on projects and tasks as assigned by supervisor
- Establish and maintain effective working relationships with vendors and internal customers
- Provide first level support to minimize interruptions in computer systems and related equipment by answering and, when possible, solving incoming interactions from internal users
- Participate in problem/change management activities to minimize impact of service disruptions on end users

**Qualifications:**

Candidates should be a recent college graduate and have successful experiences working in a collegial but independent environment. Desirable knowledge and skills include, but are not limited to:

- Strong team orientation
- Effective technical, analytical, communication, organization, and troubleshooting skills
- Strong computer skills in MS Office
- Ability to absorb and retain information quickly
- Ability to crawl or bend as needed to install or uninstall technology equipment
- Ability to frequently move technology equipment weighing up to 50 pounds across the office
- Highly self-motivated and directed

**Hours:**

- Normal business hours are between 8 a.m. and 5 p.m.; may be required to change start or end times for coverage purposes and may be required to work some off-hours projects

**To Apply:**

Interested candidates are encouraged to email resumes and cover letters to wboyd@boydconsultingpartners.com
5. Please review the latest Computer Science projects from MindSumo

MindSumo partners with employers to create projects that you can complete to get work experience, win prizes, and be hired for jobs and internships. Questions can be directed to aaron@mindsumo.com

Cigna Challenge: How would you effectively scale a large number of production databases? - $600 in prizes

Logitech Challenge: Propose a product to improve remote communication between two people - $1000 in prizes

Astrazenca Challenge: Propose a tool to capture information during a brainstorming session - $1000 in prizes

7. QAD Fast Track Program- Full Time Opportunities
Graduate Development and Job Rotation Program

Thank you for your interest in QAD. We congratulate you on your academic accomplishments, and know that you have worked hard to achieve your goals. As you prepare for the next facet of your life by transitioning your enthusiasm and hard work into a professional career, we hope that you will consider QAD as your employer of choice. QAD offers a passion for excellence in areas of supply chain and manufacturing applications, technology, business and application solutions, and customer engagement. Our employees are committed and challenged, while working in a professional and stimulating environment.

About the QAD Fast Track Program

QAD provides an increasingly complex technological solution to the marketplace, requiring a greater breadth and depth of knowledge from its workforce. It has become an increasingly difficult task to ensure that essential product knowledge reaches our customers and is dispersed throughout the organization. The QAD Fast Track program is designed to help with the transference of knowledge within and among the different functional groups, and to facilitate a greater understanding of customer demand.

The complete Fast Track program is twelve months in duration and has three components: Research & Development (R&D), Customer Support and Services. Every Fast Track participant will work through each of these components/departments, and will receive extensive training, hands-on experience and preparation to take the appropriate APICS certification exams. The program will start with a 6 month R&D assignment (6 months at Corporate office in Santa Barbara, CA or 3 months in Santa Barbara, CA and 3 months in Atlanta, GA or a European location), then move to Customer Support for 3 months (Mt. Laurel, NJ location) and finish up with 3 months in Services (at the Mt. Laurel, NJ location, or a European location and/or customer sites in the US or Europe). Upon successful completion of the program, the Fast Track participants will be evaluated for placement in one of the three functional departments to further their QAD careers. Candidates typically will be selected for a set functional path at hire.

Program Benefits

The QAD Fast Track program offers many other benefits for participating graduates:

- Extensive training on product, industry and soft skills
- APICS certification preparation and test support
- Develop cross-functional knowledge
- Enhance self-esteem
- Broaden perspective of organization
- Enriching skill banks
- Development of key competencies: Leading Change, Business Acumen, Initiating Action, Selling the Vision, Interpersonal Awareness, Building Strategic Work Relationships, Influencing, Building Trust

Qualifications

- Bachelors Degree in Computer Science, Engineering, Finance, or Industrial Manufacturing Management with MIS course work or dual major; or related field — graduate degrees also welcome
- Proven technical skills
- Creative thinker and enthusiastic learner
- Ability to relocate and travel
- Flexible to change
- Strong communication skills
- Internship a plus

Interview Process

Initial interviews will be conducted by QAD Management and Human Resources staff on campus and by phone. We will invite candidate who demonstrate the traits and interests most closely aligned with our positions/business needs for a second interview at a QAD office after the phone/campus interview. If invited, you will be asked to complete a QAD Employment Application and other pre-employment activities prior to the in
8. IT Intern - Horsham, PA - Summer 2015 – Will consider Sophomores & Juniors
Graduation Range of December 2015-June 2017
