

# Mid-Atlantic Numerical Analysis Day

A one-day conference on Numerical Analysis and Scientific Computing for graduate students and post-doctorates. A great opportunity to present your research and to meet other young researchers. The meeting features contributed talks and poster presentations.

## Friday, 28 October 2022

### Keynote Speaker

Qiang Du  
Columbia University

*Learning Hidden Dynamics: From Practice to Numerical Analysis*

### Meeting website:

<https://www.math.temple.edu/events/conferences/na-day/>

### Register online

There is no registration fee, but every participant needs to register in advance.

### Submit an abstract

For a contributed talk or a poster by 30 September 2022. Or just join as a listener.

**Make your own travel arrangements** (see website for directions).

**Email contact:** [naday@temple.edu](mailto:naday@temple.edu)

Organizers: Benjamin Seibold and Daniel B. Szyld

Sponsored by the Department of Mathematics, College of Science and Technology, and the Graduate School, Temple University
